

OneFul Health Winner of “Most Fundable Company” Competition

Malibu, California September 28, 2023: [OneFul Health Inc.](#) is delighted to announce that it was a winner with Bronze recognition on the [Pepperdine Graziadio Business School's](#) sixth annual [Most Fundable Companies](#)® List. OneFul competed against over 3,000 early-stage US companies to be named one of 17 participating in the final event. The Most Fundable Companies initiative aims to educate founders on the investor diligence process and recognize exceptional entrepreneurs who are solving today's problems with inventive solutions and seeking investment capital to fuel their company's growth. Watch the OneFul pitch at the [event video](#).

OneFul Health uses additive manufacturing robotics to rapidly make personalized "polypills," combining 3-7 FDA-approved pharmaceuticals into a single capsule or packets matching a doctor's prescriptions, optimized to an individual's digital health profile. Personalization of multiple medications to address chronic diseases with easy-to-take and affordable medications offers the promise to prevent deadly health events, adding quality of life and longevity to millions forced to take so many mass-produced medicines daily.

Edison Hudson, CEO, observed: "Recognition as a Most Fundable Company of 2023 positions us well for our next capital raise and brings us one step closer to scaling our first-to-market personalized polypill business". "The Most Fundable Companies initiative was one of the most intensive diligence processes we've ever participated in, and we're thrilled to have arrived on top through data-driven analysis. We're excited that the Pepperdine Graziadio Business School gives entrepreneurs a platform to showcase their businesses and set them up for success with investors."

As a winner on the Most Fundable Companies List, OneFul Health will be profiled on Entrepreneur.com and is featured in the December print issue of Entrepreneur magazine. For a complete list of the winners, visit www.pepperdine.edu/mfc-list.

OneFul About OneFul Health Inc

OneFul Health Inc has developed a personalized medicine platform that addresses adherence with individualized combination products. OneFul is first in the USA to deliver a personalized cardiovascular precision prevention "polypill", in a formulation backed by clinical evidence to decrease the risk of heart attacks or strokes by 50% a year. Oneful's patented robotic additive manufacturing process safely combines 3 to 7 FDA-approved drugs of lab-certified purity into a single small polypill or easy-to-swallow gel packet. Ten times faster and more accurate than manual drug compounding, many prescriptions are profitably made and sold for as little as \$1.00 per day. OneFul's accredited compounding pharmacy in Cary, NC, accurately fills on-demand patients' prescriptions from an online physician consult. OneFul also has access to genomic and biomarker tools to help doctors improve individual formulations, improving effectiveness, reducing side effects, and easing compliance. The company is developing new products to address broad cardio-metabolic issues including obesity and diabetes.

About Pepperdine Most Fundable Companies Competition

The Most Fundable Companies List is an annual program hosted by the Pepperdine Graziadio Business School to promote startup business development by providing pathways for startup funding and inspiring entrepreneurial spirit nationwide. More than 3,000 companies across all 50 states applied for the 2023 program. The Pepperdine Graziadio Business School's Most Fundable Companies Showcase, presented by the Singleton Foundation for Financial Literacy and Entrepreneurship, took place on September 28, 2023, at Pepperdine University's Villa Graziadio Executive Center.

The Most Fundable Companies program was launched by the Pepperdine Graziadio Business School in 2018 as a free resource to help entrepreneurs assess their readiness for private investment. The initiative involves a multi-phase assessment that evaluates several company variables, including financial projections, market opportunity, intellectual property, and the strength of the management team, all of which are used to generate objective and customized feedback and scoring to improve readiness for funding.
